

Biometric Scanning for PowerSchool

PowerSchool is the leading and fastest growing student information system (SIS) available today, supporting more than 8.5 million students in all 50 states and over 55 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student, while creating a collaborative environment for parents, teachers and students to work together to prepare students for the future. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn, and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

The identiMetrics Finger Scanning ID System™

The identiMetrics Finger Scanning ID System is a powerful biometric ID platform that provides indisputable proof of student identification. With just the touch of a finger, it eliminates the need for ID cards and ID numbers allowing schools and school districts to increase accountability, improve operations and boost security.

How Does it Work?

Once the students are enrolled in the identiMetrics Finger Scanning ID System, they can be identified quickly and accurately to PowerSchool and any other third party software application that uses swipe card, bar code or ID number input.

The identiMetrics Finger Scanning ID System uses a single common database for student identification in the cafeteria, classroom, attendance office, school entrance, nurse's office, library, for dances and athletic events – anywhere in your school where you need to identify students!

Why should your school use the identiMetrics Finger Scanning ID System?

- To save time and money...and improve your operations.
- To have accurate and auditable records for essential governmental funding.
- To know who is in your school and where your students are at all times.

About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication and simplify internal processes, such as scheduling and grading.

We believe that providing today's schools and districts with a choice of flexible, interoperable and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers or students.

About identiMetrics

identiMetrics, Inc. is the leader in finger scanning identification solutions for schools. identiMetrics provides the only finger scanning ID system designed by educators specifically for the unique needs of schools. The identiMetrics Finger Scanning ID System works easily with PowerSchool and any other third party software applications a school has in place. It provides a cost-effective and accurate replacement for ID cards and ID numbers allowing schools and school districts to increase accountability, improve operations and boost security.

Accurate identification and tracking of students is now critical in all aspects of the day-to-day management and administration of our schools. By using finger scanning for identification, the problems and costs associated with out-dated identification methods can be replaced with time-trusted finger scanning technology allowing new standards of accountability to be put into place.
